

Protect Yourself and Your Family from ID Theft

Incidences of ID and data theft are escalating rapidly in the U.S., and victims spend hundreds of hours trying to “undo the damage.” That is why NEA Member Benefits and Identity Fraud, Inc., a pioneer in providing identity fraud solutions for individuals and businesses, are offering members both resources and discounted services through the **NEA ID Theft Protection Program**.

A special online site (www.neamb.com/idfraud) links to comprehensive information about five different protection plans with savings from 15 – 33% off the retail price for NEA members only. Individual plans start at under \$20 per year; family plans are also available. Members also have access to an extensive library of helpful information and tools to educate themselves about identity theft and what steps to take if they have been victimized. Find these educational resources on the Identity Fraud, Inc. website at www.identityfraud.com/neamb. Just look under the *Prevent*, *Prepare* and *Respond* links at the top of the page.
